Care Package Goal Met

A Note From Our Founder

We are so pleased and honored to announce that we have already met our 2015 goal to equip 20 more families with our care packages. Because of your partnership, we have surpassed it by 5, meaning 25 more families are being taken out of extreme poverty. Thank you so much!

Moreover, FNTE is now officially a non-profit in Burkina Faso, as it is in the U.S.A., and this requires my stamp and signature on the government records. Therefore, I will be traveling to Burkina in August to complete the process, meet and train the new 25 families and bring you some exciting updates of the lasting difference you are contributing to. As you know, meeting and presenting FNTE to governmental officials can be very challenging. I will be humbled by your support, thoughts and prayer during this unique trip.

Blessings on you,
Alfred K. Koala

Alfred and Ashley Koala

25 Families Out of Poverty

Successes of Your Partnership

Details for each family

As our founder stated above, you are changing the family tree of a minimum of 325 people (25 families x 13 members each) for generations. Each of the 25 families is currently receiving our care package comprised of:

- 2 bulls and a plow
- Yoke and chains
- Vaccination of the bulls to ensure their health
- A bag of rice to feed the family during the training
- 3 months training to ensure they can do it themselves
- Mentor-ship from our local team and from the previous successful families
- Last but not least, the most empowering message Alfred will deliver them in August.

Expected results

The sustainable outcome of our programs is unparalleled and speaks for itself.

- Each family is able to produce enough food to feed themselves: No more starvation!
- Each family sells their surplus, enabling them to afford the cost of education for their children
- Healthy and educated children, instead of starving and malnourished children
- They are equipped, trained and empowered to help themselves
- Each family gives the same care package to another family 5 years from now: paying it forward!
- Yes, your contribution to FNTE never dies out: It lives on and on and on...

Next on Our 2015 Goals

Clean water well

- Not only are we beyond our 20 families goal, but also are close to providing a new clean water well to another village of 5,500 people. With your partnership, the population of the village of Zekemzougou will never have to drink dirty water.

School classrooms

- Would you like to build a classroom on FNTE's school property and name it after your family?
- Would you like to contribute to the construction of the walls?

Tega enjoying the clean water well.

School wall under construction.

"You were made to make a difference - Outlive your life"

-- a simple, but profound statement from Max Lucado --

Make a lasting dent in the world with [FNTE](#).

Thank you for your lasting partnership!
