

A Note From our Founder

Greetings!

I am so excited to announce that Chico State President, Dr. Paul Zingg will be our special guest speaker at our Chico annual banquet on April 15th, 2016. He has been one of my great role models behind the scenes through his dedication and genuine commitment to education. Also, we started 2016 very strong with 31 new recipients of our women micro financing. This second round added to the previous group makes a total of 64 women that you have contributed to freeing from extreme poverty.

Last but not least, my team mailed out your 2015 tax-deductible statement in January; In case you haven't received yours, please let us know and we'll get it out to you. My sincere heart of gratitude goes out to you for your partnership in making the lasting difference.

Blessings on you,
Alfred K. Koala

Your 2015 tax-deductible statements are on the way.

FNTE Women Association Project Update

Amazingly, our micro-financing project has really gotten off to a good start. As, our founder stated at the eve of this project: "There must be a solution and our solution must be sustainable and inclusive of the women themselves". Well, the women of Burkina Faso are taking it super serious. More than 100 are on the waiting list already. Thankfully, more and more donors are seriously getting involved. We are so excited about tripling the 64 in 2016. Yay!!!! The lovely thing about FNTE is that we don't just give them food or money; we teach them and equip them and the results are for generations.
