

Note From Our Founder

Greetings!

With the global concern of our time, there has never been a better time to make a difference. This year, I am inviting to partner with FNTE, for I believe we can make a lasting difference together. A difference that makes a better world for this generation and for generations to come. With that in mind, we are building a school that will give an opportunity to children who would not have it otherwise. I was just like them but education made a huge difference in my life. My team and I are all in not just to give, but to help people in such a way that they can help themselves. Would you join us to make a lasting difference?

"I was just like them" Alfred Koala

Blessings on you,
Alfred K. Koala

School Construction Update

Good news! At our 2016 Chico banquet, Alfred said we would build the first wing of the school. In our December newsletter, we updated you that the first wing of the school was almost done. Because of your support, it's now completed and done. What does it include?

- * 3 large classrooms that each accommodates 50 students
- * A small administration office
- * A large restroom for girls and for boys
- * A property caretaker house

FNTE vision of seeing poor children have access to education is here. A big thank you to all our donors.

Restrooms

The 3 classrooms and the administrative office

School property caretaker house

We could not have completed this wing without your help. We really appreciate

your partnership with us.
FNTE Team

FNTE 2017 Goals

We are all in for a big and lasting difference. Our plans for 2017 are very specific so you can designate the project you want to invest in. We plan to

- 1)- Take 20 more families out of extreme poverty through our care packages
- 2)- Drilled another clean water well to provide clean water to 3,000 people
- 3)- Continue the school construction with the second wing

Our team that will go to Burkina Faso in September will participate at the school official opening and help with the construction of the second wing. Would you like to go on this exciting trip? Just let us know.

More details will be provided at this year banquets.
